About Vitamin Angels

Vitamin Angels (VA) is a 501(c)3 non-profit, global public health organization working to improve nutrition worldwide. VA works directly with local organizations, including governments, to reach nutritionally vulnerable populations – pregnant women, infants, and young children – who are underserved by existing systems. Since 1994, VA has been delivering evidence-based nutrition interventions and providing technical assistance to reach more than 70 million women and children in low-resource settings annually.

Vitamin Angels is an equal opportunity employer committed to fostering a workplace that values diversity, equity, inclusion, and belonging. We are a dedicated group of individuals who strive to create a supportive environment where all individuals have access to equal opportunities to succeed, regardless of background, identity, or perspective. Our efforts aim to ensure fairness and mutual respect for all employees, promoting a culture of belonging and professional growth.

Role or Purpose of Position

We are seeking a dynamic and strategic Learning & Development (L&D) Manager to design, implement, and oversee leadership and talent development initiatives across the organization. This role will be pivotal in shaping how we grow and prepare our people for the future—designing and delivering learning initiatives that link development with potential, and strengthening leadership, people management, and technical capabilities. The L&D Manager will partner closely with the People & Culture team and senior leaders to build learning strategies, create impactful content, facilitate programs, and measure effectiveness. This role requires both strategic vision and hands-on execution, with responsibility for managing projects end-to-end and ensuring learning initiatives are aligned with organizational goals and talent needs. Additionally, the L&D Manager will partner closely with Vitamin Angels DEI Council to stay abreast of DEI strategies and implement these initiatives into learning objectives.
